

4 THE BIG

FOUR PATHWAYS TO PERFORMANCE PROFITS.

Every Sierra enthusiast has a local performance truck connection — their GMC Dealer. Offering the only performance parts designed, engineered, tested and backed by GMC, dealers are the authoritative source for advising and equipping Sierra performance enthusiasts. Show them the pathway to premium performance with the “Big 4” — the core group of GMC performance parts designed to help increase horsepower, reduce airflow restriction, provide an integrated 2-inch suspension lift and enhance brake system thermal capacity, all without voiding existing coverage under the New Vehicle Limited Warranty when installed by an authorized GM dealer. Whichever GMC performance parts they choose, customers can rest assured that they are seamlessly integrated with the vehicle right from design stage for fit, appearance and compatibility.

AIR INTAKE UPGRADE SYSTEM

- Puts a great-looking, high-flow performance filter element on display underhood
- Helps to reduce air intake restriction
- Features a high-efficiency dry media air filter
- Available for 5.3L and 6.2L V8 engines
- Includes Dealer-installed matching MAF calibration for optimal performance

EXHAUST UPGRADE SYSTEM

- Increases horsepower and torque while unleashing the aggressive sound of GMC Performance
- Bolt-on cat-back system fabricated with premium 304 stainless steel with improved corrosion protection
- Tuned design requires no recalibration, maximizes the performance experience and minimizes drone

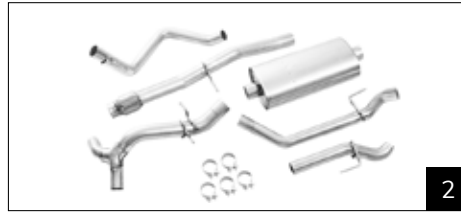

2-INCH SUSPENSION LIFT UPGRADE SYSTEM

- 2-inch suspension lift is compatible with all driver-assist systems in Next Generation Sierra 2WD and 4WD models
- Specific systems for Next Generation Sierra 2WD and 4WD models with no change to vehicle service intervals
- Requires a front-camera reconfiguration for optimum visibility and Electronic Power Steering calibration to ensure that all driver-assist systems continue to function seamlessly
- Applications and Restrictions on the reverse side

FRONT AND REAR BRAKE UPGRADE SYSTEMS

- Bolsters driver confidence with a 89% increase in brake pad area for greater system thermal capacity
- Boasts the legendary Brembo® performance pedigree, designed in partnership with GMC engineers specifically for your vehicle
- Enhances a vital system of every well-rounded performance vehicle
- Duralife™ rotors' feature a hardened surface that helps to reduce corrosion and vibration

THE NEXT GENERATION OF PARTS FOR THE NEXT GENERATION SIERRA

1 COLD AIR INTAKE UPGRADE SYSTEMS

- For deep-breathing performance, the system reduces the stock engine intake airflow restriction by up to 17% on 6.2L and up to 13% on 5.3L
- The open-element air filter is contained in a sealed compartment with a viewing port that shows off the filter element and allows for quick visual checks
- Available for 5.3L and 6.2L V8 engines

P/N	LPO	DESCRIPTION	INSTALL TIME
84788902	5W7	5.3L Cold Air Intake Upgrade System	0.5 hr
84788904	5W7	6.2L Cold Air Intake Upgrade System	0.5 hr

2 EXHAUST UPGRADE SYSTEM

- Up to 13 hp gain on 6.2L exhaust system, up to 10 hp gain on 5.3L dual exhaust system, and up to 7 hp on 5.3L single exhaust system
- Open up the breathing capacity of the Next Generation Sierra with up to 40% reduction in backpressure at 335g/s on the 6.2L Exhaust system
- No calibration needed
- Available in single or dual exit — single features a side exit/dual features a rear exit
- Designed and validated by GMC engineers

P/N	LPO	DESCRIPTION	INSTALL TIME
84173608	WBC	5.3L Short Wheelbase Cat-Back Single Exit Exhaust Upgrade System with Tip with GMC Logo	0.5 hr
84173604	WBC	5.3L Short Wheelbase Cat-Back Dual Exit Exhaust Upgrade System	1.0 hr
84527234	WBC	6.2L Short Wheelbase Cat-Back Dual Exit Exhaust Upgrade System	1.0 hr
84173606	WBC	5.3L Long Wheelbase Cat-Back Single Exit Exhaust Upgrade System with Tip	0.5 hr
84173605	WBC	5.3L Long Wheelbase Cat-Back Dual Exit Exhaust Upgrade System	1.0 hr
84527234	WBC	6.2L Long Wheelbase Cat-Back Dual Exit Exhaust Upgrade System	1.0 hr

3 2-INCH SUSPENSION LIFT UPGRADE SYSTEM

- Designed by GMC engineers, the Lift Suspension Upgrade System achieves a 2-inch suspension lift
- Individual systems for Next Generation Sierra 2WD and 4WD models
- Rancho® Front and Rear Passive Monotube Dampers are specifically tuned to the chassis
- GMC Dealership installation includes Front Camera reconfiguration and Electronic Power Steering recalibration to ensure that all Driver Assist Systems function seamlessly
- See Application Chart below

P/N	ACD	DESCRIPTION	INSTALL TIME
84629787		2-Inch Suspension Lift Upgrade System for 4WD	4.8 hr
84629789		2-Inch Suspension Lift Upgrade System for 2WD	4.3 hr

4 FRONT BRAKE UPGRADE SYSTEM

- Front 6-Piston Brembo® calipers in Red
- Duralife™ rotors feature a 22% increase in rotor area over stock rotors, with a hardened surface to help reduce corrosion and vibration
- Brake pad area is increased by 89% over stock for increased system thermal capacity

P/N	LPO	DESCRIPTION	INSTALL TIME
23505024	5JL	Front Brake Upgrade System	2.1 hr

REAR BRAKE UPGRADE SYSTEM

- Great-looking rear brake caliper replacement color matches the front calipers and is compatible with the stock rear rotor diameter

P/N	LPO	DESCRIPTION	INSTALL TIME
84434801	5JL	Rear Brake Upgrade System	1.1 hr

ALLOWABLE SUSPENSION LIFT CONFIGURATIONS FOR NEXT GENERATION SIERRA 1500

RESTRICTIONS

(DO NOT INSTALL THE SUSPENSION LIFT ON VEHICLES EQUIPPED WITH ANY OF THE FOLLOWING)

P/N	DRIVE	AVAILABLE TRIMS	TRUCK CONFIGURATION	RESTRICTED CONFIGURATION	RESTRICTED TRIMS	RESTRICTED OPTIONS
84629787	4WD	Sierra (1SA), SLE (3SA), Elevation (3SB), SLT (4SA)	Crew & Double Cab	Regular Cab	AT4, Denali	Max Trailering Package (NHT) and Snow Plow Package (VYU)
